## EXPERIENCE

---

### Deloitte USI

Junior Solution Analyst - Cyber Identity

July 2024 - Present

Hyderabad, India

Managing end-to-end **identity lifecycle** (JML), access provisioning, **SailPoint IdentityNow development**, issue resolution, application onboarding, and **RBAC implementation** for secure identity governance.

### Freelance Web Developer

August 2023 - July 2024

- Delivered diverse freelance projects using **HTML, CSS, Bootstrap, Tailwind, ReactJS, React Native, Flutter, PHP**, and **MySQL**, demonstrating full-stack expertise.
- Developed a telecommunication website with **admin controls** and live tracking, a coaching center site with tutor management and **PDF generation**, and a responsive **WordPress landing page** for an engineering firm.

### Front-End Web Developer

December 2022 - April 2023

- Worked as a Frontend Intern at Yunay Innovation, gaining hands-on experience in website development, design, and maintenance.
- Developed and contributed to projects using JavaScript, including a billing website, enhancing practical frontend skills.

## PROJECTS

---

### Telecommunication website | PHP, MySQL, HTML, Bootstrap CSS, JavaScript

[Website](#)

- Developed a dynamic **landing page** and admin portal to manage teams, with **live location** tracking and **camera-based attendance** for field employees.
- Integrated affiliate and digital marketing features to boost employee engagement and performance.

### Daily Journal | React Native, Async Storage

[GitHub](#)

- Developed a Daily Journal app to record updates, plans, and personal reflections with a clean and intuitive UI.
- Implemented full **CRUD functionality** and filtering options for efficient journal management.
- Used **AsyncStorage** for local data persistence, ensuring offline access and smooth user experience.

### Tutorial Website | PHP, MySQL, HTML, Bootstrap CSS, JavaScript

[Website](#)

- Built a tutorial website for a coaching center featuring a **responsive landing page** and enquiry form for students/parents.
- Enabled **admin panel** to manage tutor applications and upload subject notes for student access.
- Integrated **PDF generation** for monthly fee receipts and Q&A documents to streamline academic operations.

## TECHNICAL SKILLS

---

- Programming Languages:** C++, Java, JavaScript, PHP
- Frontend Technologies:** React.js, React Native, Flutter, HTML, CSS, Bootstrap CSS, Tailwind CSS
- Backend & Databases:** MySQL, Firebase

## EDUCATION

---

### Ravenshaw University

Bachelor in computer science

August 2021 - June 2024

CGPA: 8.83
